

# SBARA's Groundplane

APRIL 2007 VOLUME 8 ISSUE 4

The monthly Newsletter of the South Bay Amateur Radio Association

## President's Shack By Steve KA6S

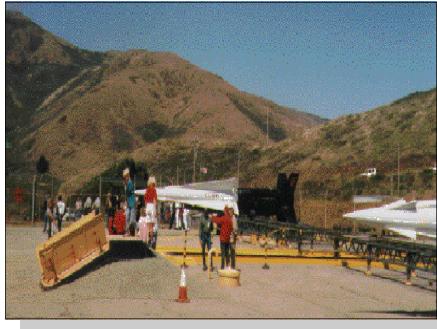

It's been busy and you can tell the year is in full swing! Your board has been REAL busy the last few weeks. I'll use this forum to let you know what we've been up to!

We've made some progress on the class we're organizing for May. This will be a General Radio Theory class. We've reviewed the Syllabus and chosen a text. There are a few topics that are on the test that are not in our chosen text so we'll have to supplement the text. We still have to find a couple of instructors to help with the presentation. If you would be interested in picking up a week, I'd love to hear from you.

An advertising flyer has been prepared and reviewed. We will hang this up down at HRO and probably advertise the class at the upcoming swap meets. We'll also announce the class on the ARES nets, and via the Section Manager. We'll also let other local clubs know about the class also.

Field Day planning is also underway. We have team leaders for each band/station. Tickets have been ordered for the K2 raffle and we have actually received the K2 kit (as of last night!). The two biggest jobs involved in the raffle are building the kit. Mike Studer, K6EEP has

offered to put the radio together for us again. Al, WT6K has offered to help Mike with this effort this year. The other large effort is selling the tickets! If you go to other clubs and would be willing to sell a few tickets, please get hold of our treasurer, Bernhard, AE6YN who will be keeping track of ticket sales

This month's meeting will have Bill Rausch, AA6PA giving a presentation on a visit to a local NIKE site.

We'll be having the pre-meeting get-together at Chile Garden at 3241 Walnut beginning at 6pm. Hope to see you there!

Happy Easter  
and Happy  
Spring!!!!

# SBARA's Groundplane

*The monthly Newsletter of the South Bay Amateur Radio Association*

## SBARA March Meeting Minutes

Last month's general meeting was held on March 9 and began on time.

We had some guests at last month's meeting. Attending were Glenn (WB6W), Oliver (KB6BA), Eric (WD6CMU), Alan (WA6ZQZ) and son Chris. The other two guests, and new hams, are Don O'Hare (KI6GCF) and Shaun Houseman (KI6IFY).

Isaac Feriante (KI6DIL) reported that he had passed the General Exam.

His father, Adam, announced that he now had a new call but he was unable to recall it at the time. Adams new call is ND6N. Congratulations, Issac and Adam!

Egbert Vallecillo (KI6FIU) made an announcement in behalf of Mike Berke (KI6EGL), Newark EC, inviting all SBARA members to attend a Tri-Cities Emergency Fair on May 14 at Washington Hospital West, 10AM-3PM.

Al Rendon (WT6K) asked the membership to consider signing up to work the Hay-

ward Zucchini festival, August 18th & 19th. 30 of the 44 shifts have already been filled by SBARA volunteers. Great job, everyone!

We have a new raffle chairperson! SBARA President, Steve, announced that Isaac Feriante (KI6DIL) has taken up the task for 2007. Raffle tickets are \$1 each with a \$3 buy-in at the general meetings.

Steve introduced the evening's presenter, Mike Cheponis (K3MC). Mike's presentation was on the reconstruction of Digital Equipment's first computer model, the PDP-1, at the Computer History Museum in Mountain View, CA.

The raffle was held and Steve became the owner of a new soldering iron which was interesting as he had to leave the meeting early. The meeting was adjourned just before 10PM.

**Groundplane SBARA News-letter Copyright 2007  
SBARA.....**

The Groundplane is published monthly by the South Bay Amateur Radio Association. Articles and letters are

always welcome. The normal deadline for material is six days prior to the end of the previous month. Articles can be sent by email to:

**Bill, at:  
[hamradio@comcast.net](mailto:hamradio@comcast.net)**

Contact the Editor for details and submission guidelines. Articles are due the Saturday prior to the monthly meeting.

The opinions expressed in the Groundplane are strictly those of the authors.

## Membership Dues Reminder....

Pretty much all members have paid their membership dues. If you haven't: please remember that there is now a late fee after April 30th! Please send a check to Bernhard Hailer, SBARA Treasure, 4952 Seneca Park Loop, Fremont, CA 94538.

Please fill out the SBARA Membership Application Form.

You can find it at <http://www.sbara.org>, click on "SBARA Forms".

Thanks!

# 2007 Hayward Zucchini Festival

The call is going out early this year for SBARA members to once again volunteer at the Hayward Zucchini Festival. This year's festival is on August 18th and 19th and is the one event where your help REALLY pays off.

How does SBARA raise the funds to pay the rent at the Veterans Building and sponsor all the year's activities? The answer is the Hayward Zucchini Festival. In 2006 we received \$1,300 for our support at the 2005 festival. The Zucchini Festival has become SBARA's major fundraiser, that is, if we can recruit

enough participants to fill all the shifts on both days of the festival.

As mentioned above, we are starting early in an attempt to fill every shift and we have almost half the shifts filled as of the February 2007 SBARA meeting. Since we still have halfway to go to reach the goal of filling all the shifts, the leadership team is asking those of you who haven't yet signed up, to consider signing up for a shift on this coming August 18th or 19th. You do not need to bring anything since the Festival provides the Business Band Transceivers. It's fun for the family too.

If you are interested in bringing the entire family, Mike Fung WA6AWI will provide a family pass for any SBARA member who signs up for a shift. If you haven't participated in the past give it a try this year. The festival is close by in Hayward and takes only a few hours of your time. The benefit is enormous for SBARA. Go to [www.sbara.org](http://www.sbara.org) and in the menu bar click on 'Annual Events', then 'Hayward Zucchini Festival' for information and a map to Kennedy Park.

For signing up or if you have any questions, contact Al Rendon at (510) 656-2427 or by e-mail at [wt6k@arrl.net](mailto:wt6k@arrl.net).

Following are the CERT districts CE (continuing education) dates for this year and all City wide drill activities. As of today we have not assigned topics for these classes. If you have any suggestions, please let us know.

We are still reporting to Fire Station 1's temporary location at State Street and Capitol. We hope to be back at our station around July or August.

## CE Classes

May 22: Tuesday, 7:00 pm, CERT Central

Jul 12: Thursday, 7:00 pm, CERT Central

Sept 10: Monday, 7:00 pm, CERT Central

Nov 10: Saturday, 10 am, CERT Central

## Other Dates

### July 28: Saturday

Special Skills Drill, 9:00 am to 4:00 pm. CERT Central. This is the first time for this event. We will have an IC running and dispatching teams out to scenarios in the field. You will be able to come anytime during the day. Chuck, Kay, and I are looking forward to seeing everyone.

### August 7: Tuesday

National Night Out. Plan an activity for you and your neighbors.

### September 15: Saturday

Annual CERT Family Picnic. Please watch your mail (and e-mail) for information on this event. The date and/or location are not yet finalized. This year there will be no drills. However there will be learning stations if you wish to refresh your skills. This will be a time to relax and meet other CERT members. Bring your family for a day of fun. Lunch will be provided.

If you have not yet received the yellow flyer, mailed the first week of January, or the green newsletter, mailed February 1st, please contact Kay Diack, 510.792.8117, and she will get a copy to you.

Vic Valdes is currently looking for volunteers for the cities MRC (Medical Reserve Corps). If you are a nurse, physician, dentist, 1st responder, etc. and are interested, please send an e-mail to [firepubed@ci.fremont.ca.us](mailto:firepubed@ci.fremont.ca.us) giving your full name, address, e-mail address, home phone, and cell phone. Vic is planning a meeting later this month for all interested parties.

## Treasure Note

### SBARA Treasurer Note, April 2007

Dear SBARA Members,

Spring is approaching. Antenna time! And... Tax time! Same for the SBARA, which is exempt - but nevertheless has to declare the balance. Well, deadline is mid of May, so there's time left.

Most members have paid their membership dues. These dues are really important to keep the club alive. They allow us to e.g. purchase attractive raffle prizes and to set up a well equipped field day. If you haven't paid yet: please remember that there is now a \$10 late fee which becomes added very soon, if you don't pay in time. You

should act now as quickly as you can. Please send a check to Bernhard Hailer, SBARA Treasure, 4952 Seneca Park Loop, Fremont, CA 94538. Please also fill out the SBARA Membership Application/Renewal Form you can find at <http://www.sbara.org>, click on „SBARA Forms“ - it allows us to keep our records up to date. Thanks!

Speaking of raffles and the field day, we will again have an Elecraft K2 to give away in our field day raffle – stay tuned.

Yours sincerely - 73!  
Bernhard, DL4MHK / AE6YN

- As human space flight moved into a new uncharted era, an organization called ARISS, which stands for Amateur Radio on international space station, has been formed to design, build and operate equipment. In 1996, delegates from major national radio organizations and from AMSAT, which stands for the Radio Amateur Satellite Corporation, in eight nations involved with the international space station signed a Memorandum of Understanding to form ARISS.

- NASA and the Russian space organization Energia have signed agreements that spell out the place of amateur radio on the station. A technical team, called ISS Ham, has been officially established to serve as the interface to support hardware development, crew training and on-orbit operations.

In the United States, the American Radio Relay League, which is also known as ARRL, and AMSAT provide leadership and consultation. They also donate and build hardware as well as making sure safety and qualification tests are successfully completed so the equipment can fly. The Russians have provided ports so that antennas can be mounted on the station's Zvezda Service Module -- the space station unit that provides living quarters for the astronauts and cosmonauts. United States and Russian teams have trained the astronauts and cosmonauts to operate the equipment. The Italian team has designed and built antennas. The German team has built sophisticated repeater stations that will allow crews to make recorded reports on their daily activities and permit hams on Earth better contacts with men and women aboard the station.

The [South Bay Amateur Radio Association](#) is a general interest amateur radio club serving the Fremont Tri-City area. The club has been in existence since 1974, and has functioned continuously ever since. We are an ARRL Special Service Club, an California not-for-profit tax exempt organization as specified in IRS Statutes. We sponsor training for

new hams, license examination sessions, and participate in various public service events. If you have a specialized amateur radio interest, chances are you can share it with one or more of our club members.

SBARA meets on the 2nd Friday of every month at the Veterans Hall in Niles (Fremont), California. The meeting begins at 7:30

PM. After conducting business, coffee and snacks are served while we socialize. Following the break, a program of interest will be presented. All persons interested in amateur radio are invited to attend. Families are welcome. We hope to see you there!

For those who would like to upgrade their licenses, here's an alternative testing opportunity. The Silicon Valley VE Group has scheduled regular test sessions every alternate Saturday morning at the HP facility in Cupertino. The ARRL site shows the following info for this Saturday, information:
